Subject: Venture Oil Update

'Dear Investor,

We have been notified by Rocky Point Energy that a revised closing date should be confirmed within the next 10 days and that First Boston are very confident of a successful closing of the joint venture arrangement.

Obviously once we have this revised date we can then calculate the total amounts due and this will be confirmed within the closing statement to be issued to each investor.

We appreciate your patience during what has been a very trying time and assure you that the above information will be communicated out to you immediately it is received.

Kind Regards,
Richard Chamberlain'

Best Regards,
Leanne Chamberlain
