Subject: Venture Oil Update

Dear Investors,

We have now received notice that the additional reserve report has been completed and is being signed off by the appraisal company for remit onto First Boston.

Rocky Point Energy have assured us this additional report covers all matters requested by FB and should now lead to an imminent closing of the Joint Venture Contract between the two parties.

As soon as we have confirmation of the rescheduled closing date, we shall inform you all and further confirm the new closing balance.

Thank you for your patience showed in this matter, we know it has been frustrating for you all but hopefully the final piece of this complex jigsaw is now in place.

Yours

Kind Regards,
Richard Chamberlain

Best Regards,
Leanne Chamberlain
